

Dwarves
Fuck You Up And Get Live

This little combo includes an 11-inch picture disc and companion DVD. The DVD features a live set from 2004 that showcases the band at its vilest, cranking out nihilistic punk numbers such as "I Will Deny" and "Bleed On." The vinyl features much of the audio for the flick. The sound quality lacks a bit of clarity, but it's a spirited set nonetheless. (MVD)
