

ThanksKilling 3

POSTED BY KEN MURRAY ON OCTOBER 20, 2013 IN REVIEWS, SLIDER PICKS

Main Plot Points:

- Marketed as "The First Movie to Skip Its Own Sequel," this puppet-fueled follow-up to the holiday-themed cult favorite ThanksKilling follows feathered villain **Turkie** on a ruthless hunt for the last copy of ThanksKilling 2.

What We Thought:

- I loved **ThanksKilling** and although **ThanksKilling 3** isn't as fun and campy as the first, I still had a lot of fun with it.
- There's more puppets than humans this time around and the story is even more preposterous than the original (that's not a typo), but it's stupid fun. I'll be passing this along and recommending it to everyone that liked the first film.
- This time around they knew what they were making. They knew the audience wanted a "So bad it's good" film and they gave it to us.
- The acting is terrible. The script is terrible. It looks terrible at times, but isn't that what we want from this?
- Clearly you know where you stand on a film like this. If you never heard of this series, you probably won't be watching it. If you liked the first, watch this one immediately.
- ThanksKilling 3** was a fun watch as expected. There's boobs in the first second like the box says and **Turkie** is his wise ass self. I'd watch a fourth
