

Fans of the original “ThanksKilling” have waited four years for a sequel to the outrageous horror comedy, which featured crudely constructed puppet characters and was made for \$3,500. It fits the description of “one of those movies that are so bad they’re fun to watch.” The protagonist was a cursed, fowl-mouthed turkey that was killing off college students during spring break. Anyone who sees “**ThanksKilling 3**”and wonders how they could have missed the first sequel should know going into it that there wasn’t any. Although it’s being marketed as ““The First Movie to Skip Its Own Sequel,”” the puppets spend most of the movie on a hunt for the last copy of “ThanksKilling 2.” Not surprisingly, “TK3” is full of material created specifically to ruffle the feathers of timid viewers and enchant more open-minded fans. This time out, Kevin Stewart and Jordan Downey benefitted from a successful Kickstarter campaign, during which \$100,000 was raised. The DVD adds “behind-the-beak” featurettes, commentaries, a “Sprinkle of Wrinkle” video, PluckMaster infomercial and stills galleries.
