The Disney classic film, remastered for 3D. Ariel (voice of Jodi Benson) is a headstrong teenager, who falls in love with Prince Eric (Christopher Daniel Barnes). After Ariel and her father argue, she goes off to see the sea witch Ursula (Pat Carroll) in order to become human and find Eric. This is the film that saved the Disney Animation crew from the dustbin of history; it began an animation renaissance that still continues today, mostly under the Pixar banner. Carly Rae Jepsen has been tasked to provide a new music video of "Part of Your World." The features from the original release are also included. .

The HPD told me that I could either take an alternate route, or wait up to an hour for a scene to be filmed. If I was willing to wait, I might be in it. I decided to wait. About 20 minutes later, the red Ferrari (driven by a stuntman, not Selleck) came roaring around the corner and whizzed by, accompanied by a film truck.
