## De Lancie's Brony Documentary Coming to DVD in the UK!

You all should remember De Lancie's documentary Bronies: The Extremely Unexpected Fans of My Little Pony. Well it's finally being released on DVD over here in the UK and is being distributed by Wienerworld, a London based company.

They are the exclusive distributors of the DVD in the UK and will be releasing it on the 14th April. The DVD can be pre-ordered for a special price over on the [webpage found here](#).

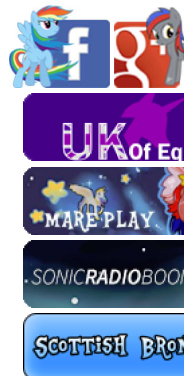

Also, Wienerworld have been nice enough to offer us a few copies to give away in a competition! More information will be made available when we get our hands on the DVD, so watch this space for your chance to win! I'll also be writing a review in the coming weeks of the documentary, surprising enough I have yet to see it so this will be something new to me as well.
