### 10. Scream In The Dark

This CD by director Dante Tomaselli is the perfect soundtrack for Halloween parties or your nightmares. A sonic descent into madness. The perfect blend of creepy sounds and macabre music, All most all the tracks are over five minutes, perfect for putting the CD on repeat grooving to on Halloween night.

### 9. 13 Ghosts (1960)

Eccentric geezer Dr. Plato Zorba has croaked and left his spooky mansion to his broke nephew Cyrus Zorba and his family. The family has also inherited the 12 ghosts old Doc Zorba has collected. not really having any money the family decide to stay in the house because ghosts or not, free is fucking free. There's also a housekeeper who may or may not be a witch. The young son Buck starts nosing around and discovers that Doc Zorba might have a hidden fortune somewhere in the house. But it seems someone else is after that money as well. And if that wasn't a big enough pain in the ass, the ghosts warn that one of them will soon die and join them as number 13. 13 Ghosts is an old fashioned haunted house fun. Perfect for late night viewing. Now granted the effects are dated and the characters seem hokey, but therein lies it's charm. If your in the mood for a horror film that doesn't hit you over the head with tons of gore or people needlessly getting tortured and relive those days when Famous Monsters ruled then 13 Ghosts will hit the spot.

### 8. Raw Meat (1972)
