**GG ALLIN – (Un)Censored Live 1993 DVD:** My god! GG Allin! Mad as a hatter! If you're into the madness that followed GG Allin you'll enjoy this release. This release sees live and backstage footage from the 'Terror in America' in America which I believe is the last live footage before GG's death shortly after. If you don't know who GG Allin is I'd look him up first before purchasing this as some will be offended by some of the scenes throughout this DVD. Tracks include 'I Kill Everything I Fuck', 'Cunt Sucking Cannibal' and 'Kill The Police' so you can guess the rest ..... Mad I say! However it's always good to see a bit of GG he actually makes the most psychopathic person look normal! 8/10
