### Every Everything: The Music, Life & Times Of Grant Hart DVD (MVDvisual)

Packed full of old live footage, interviews and historical moments, here we see a very open side to the Husker Du drummer. Grant Hart goes in-depth with great detail regarding so many incidences that have passed in his life. Filmed at various locations involved in his musical career [recording studios, record shops, music stores etc] he opens up with what enticed and finally destroyed the band that produced 'Land Speed Record'. Discussing Husker Du's discography and artwork, explaining the details regarding album covers and the influences on the subject of the legendary flyer art, Grant Hart also opens up regarding his own personal interest and drive for artwork. Not only discussing the finer details of Husker Du, but also divulging various interesting histories of other bands he continued with post Husker Du, he freely contemplates the good times and the downfalls. The imaginary house, which keeps cutting in, during the documentaries entirety all becomes clear towards the end as it's Hart's private life, which is addressed with this issue also, bringing in elements of family memories and feelings. One can't help but sense the eclectic, almost eccentric, even in-depth personality driven by confusion and anger the man suffers; its kind of a bear all scares documentary with mammoth references from the past. Hart holds back not one bit, and is open about his drug dependency, and the spiralling uncontrol Husker Du suffered maybe unnecessarily... whatever it is... in-depth explanations of why certain things happened... the whole shebang! Along with the SST Records discussions of missing payments, the out spoken Hart does show an emotional, quiet side, with sensitive thoughts and opinions. A great way to take an over view of the

critical, serious and also tongue-in-cheek opinions and views of an aging musician who was highly influential to so many. To lose his home (of forty years) and to be able to discuss his band mates, personal thoughts, mother, home life and everything (as the title suggests) makes for an interesting and educational documentary well worth an hour and a half of anyone's life. Oh and punks – don't dare miss it! **Mark Freebase**
