HORROR T-SHIRTS, & COLLECTIBLES

If you are a big fan of horror anthology films you will want to take the tour of Wild Eye's The Perfect House. Here, a over sexed tour guide shows a couple a house that on the outside might seem perfect. However, as we tour the house we learn the dark history of the house in three different stories. These are of course stories that just so happen to star Felissa Rose and Johnathan Thiersten of Sleepaway Camp fame. Each story is very different and you could argue that they get more brutal as they go along as well. While an indie film, the film also looks like it probably took a lot more money to make than I assume it did. That is a cue to the movie's production value.

There is also some good gore in this film and it has some rather nasty violent moments. Some of those moments will make you jump and get a little uneasy in your chair. That's something you can really appreciate, especially with all the movies out there that seem to just toss stuff out there without any well planning. The gore effects come at a time that seem to count here. After you've made it through this one it also tops off with a pretty neat ending as well. All in all it is a horror film that sort of reminds you of the fun days of horror. That is certainly something that is missing these days.
