Release date: July 22

Details: 2013, MVD Visual

Rated: Not rated

The lowdown: A witty mockumentary that purports to be a North Korean film that shows the bad influence of American culture on the rest of the world.

The claim that the film was smuggled out of North Korea so the rest of the world could see it, is one of the fun perks about this piece.

Whatever its origins, the film is a hoot.

Technical aspects: 16:9 widescreen picture; Stereo audio.

Don't miss: No extras.
