**Clockwork Orange County – The Rise Of West Coast Punk Rock DVD:** This DVD tells the story of the west coast punk rock scene in the 70's. Telling the story of that scene includes players such as Henry Rollins, Jello Biafra, Duane Peters and more! It's also where bands such as The Ramones, T.S.O.L. and Black Flag launched their careers. There's extras such as rare footage from Paul Young's 1981 underground documentary 'Urban Struggle: The Battle of the Cuckoo's Nest' which is well interesting and a great addition to this DVD. An interesting point is this DVD is produced by former professional snowboarder York Shackleton. He's done a great job too! A great insight into that scene in it's early days! 8/10
