Tuesday, August 5, 2014 6:07

Artist: EVIL UNITED
 Album: Honored By Fire
 Style: Heavy Metal
 Label: MVD Entertainment Group
 Date of publication: Year 2013

For those who have read my previous reviews will know that **EVIL UNITED** is the band vocalist **DANGEROUS TOYS**, **Jason McMaster** (**DANGEROUS TOYS**, **BROKEN TEETH**, **WATCHTOWER**).

He was joined on bass, **Donnie Van Stavern** (**RIOT**, **SA SLAYER**) on the battery **Shakes West** (**Murderdolls**, **NEUROTICA**, **SEBASTIAN BACH**) and guitarists **TC Connally** (**PITBULL DAYCARE**, **CULT TO FOLLOW**) and **John "JV4" Valenzuela IV** (**PITBULL DAYCARE**, **URIEL**).

Like their previous self-titled album, **McMaster** recreates a classic heavy metal thrash fused with fact dominates the latter. For those who know the previous work of **Jason** , know that their vocal ability has given him worldwide recognition with **TOYS** , but has

been extended to metal **WATCHTOWER** E **IGNITOR** , besides these **EVIL UNITED** , showing that it is an artist of great acting ability.

The instrumental part is lot of energy. We as visceral as "songs **Ghostcrushed** "where speed is extreme. There are a couple of passages that oppose most abundant spare aggressive sound.

One is an instrumental " **The Cottage** "which rescues the folk side, most within wave **BLACKMORE'S NIGHT** , then there are two tracks that are not listed in the list. Both are instrumental. One is just a quirk of subtle sounds, you can hardly see anything and lasts almost half a minute.

And the other, with that close this CD is a mixture of clean guitars, samplers with electronic background, which is then completed with a louder electric guitar and bass. You may use or have used as background for a movie. Is typical that play in a scene from a thriller film.

The cut of this board is " **Viking Funeral** "which already has a video promoting themselves in virtual channels. odd thing, in closing, is that there is almost no information about this album on the internet. Will **Jason** wanted to give me the scoop?
