

OBITUARIES

In Loving Memory of Ambrose (Larry) Bonee Jr.

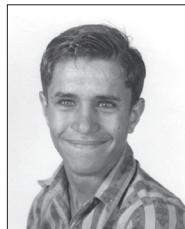

2/15/45 - 7/19/16

I have missed you so much this year. This was the longest year of my life. I miss your smile and your laughter when you told your old jokes over and over.

I know our Heavenly Father has you with Him, but I'm here without you. You were my angel, and you were my strength. Until I see you again and can hold you and tell you how much I love you, God will keep you safe for me.

Sadly Missed by your Loving Wife, Rosa Bonee

Guy John Faust

Guy John Faust passed away on Saturday, July 15, 2017 at the age of 69. Beloved son of the late Emmett Faust Sr. and Albertine "Tee-nie" Gleason Faust. Husband of Joan Gaines Faust. Devil's Domaine

MVD Visual Entertainment Group

My advice- never meet a stranger online because you just might get hooked up with Satan in Devil's Domain (Blu-ray). "Devil's Domain", pretty scary and kinky, "is a story about the ramifications of social media, cyber-bullying, and how it affects the youth of today" according to director Jared Cohn. The DVD stars Michael Madsen, Sticky Fingers, Fred Rose, Rene Nezhola and featuring the music of Iggy Pop, DMX, The Onyx, and more. The film is currently available on all VOD platforms as well. Devil's Domain is a new-age horror film centered on a cyber-bullying incident at a fictional high school that goes terribly wrong. The victim then seeks her own unique form of revenge, albeit with some super-natural help along the way. Full of surprises and gore and dismemberments, keep the candle burning when viewing! The titular Devil is a tall sexy woman but we only get short glimpses and brief moments that shows off her true form of the movie's decent example of makeup and costume design. Bonus: Slide Show, plus Extended & Behind the Scenes Snippets!

Ghost In The Shell

Paramount

Scarlett Johansson is amazing in the mind-blowing and visually gorgeous vision of the future in Ghost In The Shell (4K, Blu-Ray 3D BD combo Packs)! Rupert Sanders directs a thrilling eye-popping film that also stars 'Beat' Takeshi Kitano, Michael Carmen Pitt, Pilou Asbaek, and Chin Han. I was stunned at the rich 4K vibrant presentation and also loved the 3-D version that had Scarlett in your face every minute she's on screen doing her Kung Fu bad ass stunts! In the near future, Major (Scarlett Johansson) is the first of her kind: A human saved from a terrible crash, who is cyber-enhanced to be a perfect soldier devoted to stopping the world's most dangerous criminals. When terrorism reaches a new level that includes the ability to hack into people's minds and control them, Major is uniquely qualified to stop it. As she prepares to face a new enemy, Major discovers that she has been lied to: her life was not saved, it was stolen. She will stop at nothing to recover her past, find out who did this to her and stop them before they do it to others. Based on the internationally acclaimed Japanese Manga 1995 Animation sensation, "The Ghost in the Shell" Scarlett Johansson is perfectly cast in the lead role, and carries this movie with all of the torment that she is meant to accomplish and reminds me of another Futuristic Hit Blade Runner and The Fifth Element, only much better. Interesting facts about this gorgeous and suspenseful film is that "The Future Is Now," as scientist have already come up with what's known as a brain-computer interface (BCI), a way to wire a brain to an external device to give you direct control of a machine, such as a prosthetic arm, using only your thoughts! Also amazing is that your brain can be on the Internet according to Researchers at Hewlett Packard Enterprises (HPE), the company that served as advisers on the film! Fortunately you can all see this technology now with "Ghost," and not have to wait to see this in the future! Bonus: Hard-Wired Humanity: Making GITS. Section 9: Cyber Defenders and Man & Machine: The Ghost Philosophy! Yes, this belongs in your 3-D library because of the film's atmosphere, effects, music and aesthetics are beautifully meshed together.

Unforgettable

Warner Bros.

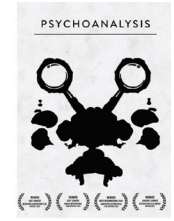

Listen up, fight back for what is yours when you observe the hit Unforgettable (Blu-Ray + DVD + Digital). Katherine Heigl stars as Tessa Connover, who is barely coping with the end of her marriage when her ex-husband, David (Geoff Stults), becomes happily engaged to Julia Banks (Rosario Dawson)-not only bringing Julia into the home they once shared but also into the life of their daughter, Lilly (Isabella Rice). Trying to settle into her new role as a wife and a stepmother, Julia believes she has finally met the man of her dreams, the man who can help her put her own troubled past behind her. But Tessa's jealousy soon takes a pathological turn until she will stop at nothing to turn Julia's dream into her ultimate nightmare. The movie was not boring and kept me on the edge of my seat the whole time, but take note, you will witness violence and great acting! EXTRAS: Reclaiming What's Yours: Making Unforgettable (Discover the world of a woman scorned in this behind-the-scenes look at a Modern Thriller) and Commentary by Director Denise Di Novi, + Deleted Scenes.

Mockumentary Psychoanalysis

Candy Factory

Hold on to your sanity, when a suicide prevention specialist starts losing clients at an alarming rate, he hires a Documentary Crew to discover the truth in the Award-winning Mockumentary Psychoanalysis (DVD)! Winner of "Best International Film" at the Manchester Int'l Film Festival and "Best Comedy" at the Canada Int'l Film Festival, This Festival Favorite Dark Comedy from Down Under Will Be Available on DVD and Digital HD Platforms Including iTunes, Amazon and Google Play! Paul Symmonds is the country's leading psychologist in the field of suicide prevention. But when five of his clients take their lives within a week, his sterling reputation is thrown into question. Believing that his charges were murdered by rival psychologist, Andrew Fendell, Paul directs the film crew to investigate every clue. To make things worse, Fendell has been put in charge of counseling Symmonds to determine if he's mentally fit. It soon becomes clear, however, that Fendell has no ulterior motives, and he's genuinely worried for Paul. Attuned to good drama, the documentary crew pushes Paul to grow the rivalry. Unfortunately, their quest for a better story comes at the cost of their subject's sanity. About the darkly-comic film, Geek Girl Up North says, "There has not been such a strong comedy-drama, which stays true to the mockumentary style since Ricky Gervais' 'The Office'!"
