Sic Fu\*ks

"Live, October 13, 2006 - The Bowery Collection" (MVD)

1970s NYC's raging punk deviants probably got  
as far professionally as they ever could have.

Their demeanor was too coarse and rude for  
the corporate, Don Kirshner outside world. (Blondie  
had the charm and the game-playing smarts.)

This reunion disc captures the self-defining cool,  
the wanton posture, and the bared scars.

Recommended Tracks "St Louis Sucks," "Insects Rule My World"
