SIC FUCKS/The Bowery Collection (MVD Audio) This is another live CBGB's audio CD and this is some killer Mass hardcore. The band rip through 12 tunes with great sound and the band rip through the tunes with a fury too. The band do a cool cover of Blitzkrieg Bob originally done by The Ramones. So far I have enjoyed every release MVD has put out from the CBGB's collection as that venue did host a ton of great shows and this is another one you should add to your collection. Info:
