

Living Colour, *CBGB OMFUG Masters: August 19, 2005 — The Bowery Collection* (MDV Audio). Living Colour's time in the spotlight was brief, but during its short run, the band threw down some rocking tunes and confronted closed-minded attitudes with stark, unifying messages. Recorded at CBGB, this live set sums up the act's legacy and provides one of the last live recordings from the late, legendary club.
