Musician Kip Winger presents his latest album From the Moon to the Sun, a vibrant collection of original pop/rock songs with Middle Eastern influences. Percussion teacher Rod Morgenstein and guitarist Andy Timmons also contribute their talent to several tracks. The pulsing, almost hypnotic rhythms captivate the listener in this unique and original album, enthusiastically recommended for anyone eager to listen to something new. Highly recommended. The tracks are "Every Story Told", "Nothing", "Where Will You Go", "Pages and Pages", "Ghosts", "In Your Eyes Another Life", "Runaway", "California", "What We Are", "One Big Game", "Why", "Reason to Believe", and "Holy Man". 53 minutes.
