A close second on this list.

Former Husker Du drummer is back with a new solo record after 10 years of putting it together over in Twin Cities.

The opening rocker *You're The Reflection of the Moon* *On the Water* starts from a big fat 10 second fade in as if Grant is a bit shy to start with a full blast after 10 years of silence. But Grant Hart quickly draws you into his world with

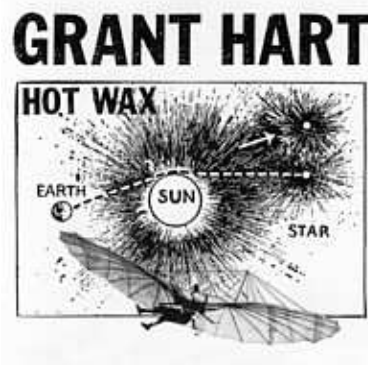

nine flawless tracks, done in the style of 60s psychedelic records. Lots of Hammond-style organs, hand claps and whirling psychedelic instrumental passages. *California Zephyr* stands out as an incredible road story of a man who settles down in San Francisco and then left out of there when people started dying.

Life and death playing a clinching game that binds us all. Tonight.
