MUSIC NEWS: Folk Rock's Mysterious Minstrel Donovan Wows Star-Studded Audience on New DVD!

The Donovan Concert - Live in L.A. is a spectacular performance at the Kodak Theatre in Hollywood from January 21, 2007.

This incredible performance DVD was recorded in front of a packed house of adoring fans at the Kodak Theatre in Hollywood, California on January 21, 2007. On this, his first Music DVD, Donovan performed all his legendary hits and cult classics.
