Bob Mould To Release Live DVD by Staff | 07.06.2007

With yet another solo record in the works, **Bob Mould** is offering his fans something to keep them occupied until then. On October 9, Mould plans to release the live DVD, *Circle of Friends -- Live at 9:30*. The footage was filmed during a stop on Mould's 2005 tour in his adopted home of Washington, D.C. The DVD will feature **Husker Du** classics such as "Celebrated Summer", "I Apologize" and "Makes No Sense At All". Such tracks were performed with a full backing band for the first time since Mould announced himself a solo artist. Not to be forgotten, Mould also included **Sugar** favorites such as "A Good Idea" and "Hoover Dam".
