coming in February

Rock pillar Bob Mould has wrapped up work on a new album. Entitled *District Line*, it's scheduled for a February 5 release date. It will be his first album for Anti- Records. *District Line* features Fugazi's Brendan Canty on drums, and one of its songs, "Walls of Time," is an ode to Mould's solo debut, 1989's *Workbook*. The new record's title comes from Mould's current residence in the nation's capital. Mould is currently out on a tour doing shows that include screenings of his concert DVD *Circle of Friends* and live sets. Check those dates [here](#). And follow on after the jump for the tracklist on *District Line*...
