### [Bob Mould: Circle of Friends -- Live at the 9:30 Club](#)

Mould has done his share to change the world. During the 1980s, [Husker Du](#) built the alt-rock temple on feedback. In 1992, Sugar flirted with pop success with Copper Blue. The grappling buff has even "scripted" for the WWE while continuing to play the angriest guitar around. The "friends" in attendance at this Oct. 2005 D.C. date include Fugazi's Brendan Canty -- but sadly no Ultimate Warrior -- on a career-spanning set that stretches from Zen Arcade's "Chartered Trips" to his latest solo disc, [Body of Song](#).
