The horror/gore genre now has an even worse name for itself

B-Grade horror/gore flicks are definitely an acquired taste that very few seem to be able to appreciate. There's no denying that the majority of these movies are quite pitiful, but occasionally I have been able to appreciate them, even if just for their non-intended comic value, their inclusion of random female nudity, or their soundtrack, which is probably the reason that a lot of metal-heads are drawn to them in the first place. This is exactly what drew me to Cradle Of Fear, which was released in 2001, and contained songs by Cradle Of Filth in the soundtrack. Vocalist Dani Filth even played the lead actor. Without the bands involvement in the film I would have probably avoided it altogether. That's exactly what will draw people to Attitude For Destruction. The promise of blood, guts, sluts and rock'n'roll, provided by the band Hollywood Roses (ever heard of them???), who are a spin off of Guns'n'Roses. If you are expecting something like Cradle Of Fear, then expect less gore and worse acting, and a script that is equally as cheesy.

The story starts with the band Hollywood Roses, who are on the verge of breaking into the big-time. They are offered a record deal with a company run by a sleazy looking couple, but only if they get rid of the current vocalist, who claims that it is his band. Of course he doesn't take it well and he starts a fight with the band when they approach him about it, and consequently they kill him. But on the same day a year later (clichéd right!), the dead vocalist rises from the dead to exact his revenge on the other band members, who are living up their success and about to embark on their first national tour. What follows next is a mish-mash of spurting blood, random nudity and bad actors struggling to remember their lines, and it will be hard for anyone but a pervert to watch with any form of interest.

The only justifiable reason to watch this movie would be for the music that is offered by Hollywood Roses, which is actually quite decent, but their live stage show still has a long way to go. Even gore fans are going to struggle with this one, as it is so bad that it manages to cast a bad shadow on a genre that already has such a bad reputation.
