

PUNKS NOT DEAD Self Titled DVD
(Vans)

This is an awesome DVD with tons of old footage from all the punk bands back in the day. Black Flag, UK SUBS, Minor Threat, Misfits are just a few as there is literally a whos who of the early punk/hardcore movement on this. Where the guy got the footage from I have no idea, but any old school fan of hardcore will do backflips over this. You also get over 2 hours of extras and they include videos, behind the scenes stuff and much more. This is easily the best DVD i have even seen on hardcore and if somebody asked me what the scene was back in the day. I would just show them this. Info: www.purevolume.com
