

**TATSUMAKI: Voivod Japan 2008 - MVD**

After the loss of the brilliant Denis D'Amour, it was assumed that Voivod was done and the band would not be able to continue on. Years after Denis' death, Voivod is back and with a vengeance. Their first Japanese performance is one for the ages and should definitely not be missed. Of particular note is the return of original bass player Jean Yves Theriault, which is not just pleasing to the ear. His playing is immaculate and for the ages. Don't delay, get your copy today!
