METAL RETARDATION

Rating: 6 stars!

The Essential thing to remember when you watch this dvd is, it's NOT meant to be taken seriously...it's a series of candid interviews with some of the heaviest bands in the metal genre & remember to laugh, keep an open mind & take EVERY clip with a grain of salt, because this entire dvd is VERY tongue in cheek! The 2 clear stars of this dvd are Corpsegrinder from Cannibal Corpse & King Diamond, because these 2 guys get asked some seriously retarded questions, yet they have a sense of humor, enjoy it all & have fun! Corpsegrinder is begged to sing "Mary Had a Little Lamb" in one part, then in another he's quizzed on candy bars, then he's asked to say the "N" word...yeah, it's that kinda interview...the entire dvd is like that. The King Diamond clips are just as crazy & I prefer the interview clip where he's talking to the girl with the low cut top over the "Megadeth" girl simply because he seems more amused with the girls boobs. Peter Steele's interview segment is ok, the Nevermore guys have alot of fun & beg the female interview to take her pants off & overall, this is a quirky, crazy dvd that features some of the darkest guys in metal being just plain goofy! There's some bonus footage on the dvd & they are audio interviews that have still pics of naked girls as the background images. The Venom audio interview is typical of Cronos...it's cocky & jovial. What can I say about this dvd other than that the title describes it pretty damn well! For me personally, living in Maryland, I enjoyed seeing the clips that were filmed outside of Club Sonar, which is located in downtown Baltimore; let's face it, it's always funny to see your home turf on film! As a complete body of work, this dvd is a fun dvd to watch.
