The Beatles: Rare and Unseen

I review a lot of Beatles books and movies for my website Beatles Number 9, so when Rare and Unseen arrived in the mail I didn't expect anything quite this extraordinary. Watching this movie was a fabulous experience, taking me back in time and placing me in the band with The Beatles. It's more of a private look at the Fab 4 rather than your typical biography, like a home movie my own mind would have made and stored for a personal look back. The only way you'll know what I mean is to see it yourself, which is a must for all Beatle fans! A lot of the photos were new to me, as home movie footage was used as well as recently discovered video, concert footage, newsreels and photos from private collections. It's one of those types of movies you wish didn't end (Even though the running time is 90 minutes with great bonus material). Your Beatles collection isn't complete without this DVD, and I know you'll love as much as I did. The movie bills itself as an honest account of what really happened. That's not an over-statement by any means. Check it out here: [The Beatles: Rare and Unseen](#) Includes an interview with Phil Collins and contributions from Tony Bramwell, Sam Leach and others that surrounded the band from the beginning.
