Inmates

## Review

by Greg Prato

Think "U.K. club band" circa the early '80s, and it's understandable to immediately think we're talking about either a punk, new wave, or metal band. But the Inmates were certainly an exception to the rule, as they specialized in an old-time rock & roll sound, that hearkened directly back to the early days of the [Rolling Stones](#), the [Pretty Things](#), and even [Creedence Clearwater Revival](#). While they may be virtually unknown in the U.S., the London-based group built a cult following, and were a solid live act, as evidenced by the 2008 DVD, *Back in History: Live*. Comprised of two gigs from 1980 (Dingwall's in London and Nelson in Wimbledon), both of the group's best known tracks are included -- "The Walk" and "Dirty Water." And while this single camera shot/straight from videotape set is a far cry from modern-day cutting-edge DVDs, for longtime fans, these rarely seen archival performances will be attractive regardless. As evidenced by *Back in History: Live*, [Rockpile](#) and the [Stray Cats](#) weren't the only bands mining classic rock & roll sounds back in the early '80s.
