Mvd Entertainment Group will release "Going Underground: [Paul McCartney](#), The Beatles, and The UK Counter-Culture" on DVD, October 1, 2013. The new film includes rare archival footage, photographs from private collections, music from [Pink Floyd](#), The Beatles, [Soft Machine](#), Amm and a whole lot more:

"...in the mid-1960's the British way of life was transformed by the emergence of a cultural underground movement. Led by a loose collective of young radicals, they introduced new social, sexual and aesthetic perspectives. Operating out of the heart of London, their various activities, from 'The International Times' - a bi-weekly journal that no hipster could be seen without - to the psychedelic nightclub [UFO](#), promoted alternative lifestyles and values, and sparked a social revolution.

"This film not only traces the history of this underground scene, but also explores its impact on the pre-eminent British group of the era, 'The Beatles'.
