Kawabata Makoto & Mothers Of Invasion
"Hot Rattlesnakes"

(MVD Audio)

"Hot Rattlesnakes" is a reissue of a classic, out of print Acid Mothers Temple related CD. Pressed in a limited quantity in the UK, it sold out almost immediately and currently commands high prices on ebay and is whispered about in hushed tones from those who have actually heard it. Guitarist Kawabata Makoto brings along Acid Mothers Temple cohorts Tsuyama Atsushi (Zoffy, Omoide Hatoba) and Ichiraku Yoshimitsu for one of the most out there power trio recordings ever. Long improvised tracks of acid rock meets prog rock meets experimental and free jazz combine with a suitable spacey recording to form a righteous wash of sound. While certainly close to Acid Mothers Temple in sound and feeling, "Hot Rattlesnakes" certainly exists in its own little corner of the Acid Mothers Temple galaxy.
