"Greatest Hits Live," George Jones (MVDvisual,

)

The title of this release is misleading, since many of George's hits are missing, and there are three songs by Johnny Rodriguez and two by Mark Gray filling out the 60-minute program, which was originally part of the Church Street Station TV broadcast from Orlando. However, there are few country tearjerkers that compare with "He Stopped Loving Her Today," and there are a few other good ones to go along with it. Snag it locally or online at www.mvdvisual.com.
