## Bahntier - V3nal CD

POSTED BY MARTIJN ON OCTOBER - 11 - 2010

Bahntier - V3nal

### Bahntier - V3nal CD (Rustblade)

Industrial synth heavy musings from Italian electro-goth outfit Bahntier who... in all honesty... don't really offer anything that Ministry, Throbbing Gristle, Nine Inch Nails or Alec Empire haven't done before. Whilst the music isn't exactly diabolically bad it's just really not that great either. Maybe if the last 20 years or so of musical

innovation hadn't happened I'd rate this release a bit higher... other reviews on the internet, although sparse, seem to be on the whole quite applauding and it's worth mentioning it was originally released in 2008. That said however if it's dated this much in 2 years it's probably an indication that it wasn't really up to that much in the first place. I would not be surprised to see this put to use in some kind of fan-based homage to the matrix... reviewed in 3 syllables... a bit shit! **Ioan**
