My Life With The Thrill Kill Kult – Sinister Whisperz: The WaxTrax! Years (1987-1991) CD (Sleazebox/Rustblade/MVD)

MLWTTKK have been specializing in aural terrorism for a long, long time now, and this disc is a testament both to their earliest days and to their continued relevance today. 'Sinister Whisperz' collects all-new remixes of a full dozen Thrill Kill klassiks, beats and bass and soundbites and whispers and screams and melodies and noise whirling and colliding in beautifully disturbing (and often disturbingly beautiful) ways... and throws in a 13th track ('Satana Rising') which dates to the era but has remained unreleased all these years. 'Nervous Xians', 'A Daisy Chain 4 Satan', 'Kooler Than Jesus', 'And This Is What The Devil Does', 'Do U Fear (For Your Child)?'... they're all here, bigger and better than ever. Just how and why did the industrial music scene take off and become an integral part of the overall mosaic that is modern underground music? The answer is in the grooves on this record. What else can I say?!? **The Impaler**
