

TOXIC FLYER ZINE

MY LIFE WITH THE THRIL KILL KULT (SINISTER WHISPERZ - THE WAX TRAX! YEARS 87-91) CD

Well for 20 years and counting TTK are one of the longest running industrial rock bands still around today, and still keeping it pretty much underground. Well this CD is a collection from the band's Wax Trax Records era, the label out of Chi that put industrial rock and MINISTRY on the map.

Well there's no "sex on wheels" here. But you'll find such songs as... burning dirt, leather sex, do u fear, shock of point, a daisy chain for satan, and more great songs from TTK early years. But fans of industrial rock, dance music, and Goth will enjoy this band's sexy rock sound that gives off a.. KMFDM, MEAT BEAT, and PSYCHOTICA sort of feel, with their own style of sexy dance feel added in. Also the band put on a great live show as well. (EX) INDUS/ALTERNATIVE
