

### **The Toy Dolls – “The Album After The Last One” - King Midas**

The Toy Dolls have always been able to hit the comedy-punk thing right on the money – hilarious but not goofy, clever but not precious, and surprisingly, never so abrasive you’d be in trouble if your parents (or kids, as the case may now be) overheard. If anything, during their time on the planet they’ve made a career out of making feel good energetic tunes that are the very essence of fun. On their newest disc, the distinctive voice of singer Olga returns with new recruits Tommy Goober and The Amazing Mr. Duncan to lay down a baker’s dozen plus of chunky, sing-along, machine gun punk rock anthems, including ones that tackle topics close to an aging rocker’s heart like “Sciatica Sucks” and “Credit Crunch Christmas.” Happily, we’re laughing with them.
