

'The Album After The Last One,' Toy Dolls (4 stars)

The title of this July 10 says it all, except that this one is the English comic punk rock band's 12th studio release. They originally formed as a quartet but were a trio led by guitarist/vocalist and remaining original member Olga (Michael Algar) by 1982. This album's rhythm section crew is bassist/vocalist Tommy Goober and drummer/vocalist The Amazing Mr. Duncan. The songs are pretty nifty, despite Olga's vocals sounding artificially sped-up or "Chipmunked" with the help of engineer Fred Purser.

Highlights include the instrumental "Olgamental Intro," the nifty "Credit Crunch Christmas," the funny-dirty "Molly Was Immoral" "Dirty Doreen;" and funny-punkers like "Sciatica Sucks" and "B.E.E.R."

Punk rockers who don't mind a little novelty will enjoy this one.
