KATE BUSH
Under Review DVD
Track Listing:
Rating: 5 Stars!

This is the ONLY Kate Bush biography style dvd on the market, which is what makes this dvd unique, because it explores the career of Kate Bush, & you can't deny that her music is heavily influenced by Elton John, but when you watch this DVD, you see the other facets of Kate's career & music! I had no idea that David Gilmore from Pink Floyd actually had a hand in her early career, & it's fascinating to watch this DVD & see the older footage of Kate Bush, because a lot of this stuff has never been played in the USA, & you realize just how spectacular Kate Bush is, while learning a lot of stories from people who were around her.
