## KATE BUSH "UNDER REVIEW" (MVD)

By [Tim Den](#)

Tuesday, Jul 25, 12:02 AM

Little more than a generalized overview of her career.

As with the other *Under Review* installments, this round table discussion about **Kate Bush** by certain "authorities" is little more than a generalized overview of her career. It doesn't "critically analyze" as much as it mentions artistic and commercial milestones as it follows Bush through her career, offering opinions from music journalists and radio DJs instead of anyone close to her. As I was only intimate with *Hounds of Love* (regarded as her best album) prior to this viewing, I was pleased to hear clips of and see videos from her entire catalog... so in a sense, I've just been given a crash course on Kate Bush that will influence my decision to continue to collect her records. But have I been given some sort of a magical portal into her creativity? Motivation? Muse? World outlook? Certainly not. I can now only safely say that, yes, *Hounds of Love* is definitely her best album, but not much beyond that.

Again, approach with caution... if you're a newcomer to Kate Bush (like myself), it certainly serves as a good starting point.
