**INGRID MICHAELSON**

*Girls and Boys*  
Cabin 24 Records

This New York songstress is enjoying her turn in the limelight after writing a song for the TV show "Grey's Anatomy" and having a song featured in an Old Navy ad. Michaelson may have shot to fame via those routes, but her music warrants the attention.

**MEGADETH**

*Warchest*  
(Box set)

Capitol Records

This massive box set proves without a doubt that even though Metallica may have sold more records, Megadeth has tons more integrity and talent. Filled with a full arsenal of unreleased tracks, this is a must for any Megadeth fan.

**KENNEDY**

*Kennedy for President*  
Cordless Recordings

This singer-songwriter has a manic style comparable to Beck; the main difference being that there is a lot more pomp than substance, although that may be an asset for Kennedy in today's image-driven music scene.

**KEITH RICHARDS**  
*Under Review*

Sexy Intellectual Productions

Normally, "unauthorized" DVD's aren't worth much, but this look at the Rolling Stone's guitarist who is sometimes known as "the human riff" has a lot going for it and spans almost two hours.

**CIPES AND THE PEOPLE**

*Conscious Revolution*  
KG2 Records

Reggae was always meant to be more of a musical weapon than the background music to a bong session. This hook-filled album catches a fire and the true spirit of the reggae movement.

**VARIOUS ARTISTS**

*Instant Karma: The Campaign to Save Darfur*  
Warner Brothers

Officially sanctioned by Yoko Ono, musical heavyweights like Aerosmith and Green Day team up with Amnesty International to pay tribute to John Lennon and raise money to stop the violence in the Darfur region of Sudan.

**CHANCE'S END**

*The Outsider*  
Definite Plus Music

Violin doesn't fit in breakbeat electronica, and that's probably why this works so damn well. Former Boulder resident and classically trained violinist Ryan Avery, a.k.a. Chance's End, has just released his sophomore effort *The Outsider*, from his new digs in California and his strings fit perfectly with the downtempo breaks. An unnatural blend of synthetic and organic sounds that somehow fit perfectly together.
