Bruce Springsteen 1978-1982 DVD

08/13/07

(PR) MVD has set a Rocktober 9th release date for Bruce Springsteen Under Review 1978-1982: Tales Of The Working Man DVD.

Although Bruce Springsteen's huge body of work has had its highs and its not so highs, there is one distinct period within his career that remains, almost inarguably, his most creative, consistent, and satisfying. We talk of course of the trilogy of albums he released between 1978 and 1982, comprising Darkness On The Edge Of Town, The River and Nebraska.

Across these records Bruce's storytelling was up there with Steinbeck's, his songs ranked with Dylan's best and the live shows were as exciting as anything James Brown had ever delivered. This documentary film looks again at these albums, and the shows he performed around them, and charts Springsteen's journey through this dark but glorious period.

FEATURES INCLUDE Historical musical performances, reassessed by a panel of esteemed experts and obscure footage, rare interviews (with Springsteen and with others) and seldom seen photographs.
