"Frank Zappa and The Mothers Of Invention - In The 1960s"...

[Click image to enlarge...](#)

"Frank Zappa and The Mothers Of Invention- In The 1960's" includes rare performances, obscure footage, exclusive interviews and vintage photographs, covering the true story of "The Mothers of Invention" and during the first incarnation of the band.

With group members Jimmy Carl Black, Bunk Gardner, Don Preston and Art Tripp revealing their times with Frank Zappa, with contributions from 'scenesters' Kim Fowley, biographer Billy James, Zappa academic Ben Watson, music journalist Richie Unterberger and musician Alan Clayson, this program is the most detailed doc on Zappa and The Mothers to emerge.

Track Listings include Who Are The Brain
