### **"The Rolling Stones -- 1969-1974: The Mick Taylor Years"**

Guitarist Mick Taylor's blues and jazz influences on the British Invasion rock band the Rolling Stones are recalled glowingly in this 2010 documentary. Taylor helped the band make a quantum leap with his involvement in the albums "Let It Bleed," "Sticky Fingers" and "Exile on Main Street," which many call the Stones' "Golden Period." Unrated, 99 minutes. DVD extras: a featurette and bios. From [MVD Visual](#).
