Basketball Wives ()

"SPECTACLE: ELVIS COSTELLO ... SEASON TWO" (MVD WITH Visual) ਖ਼ੇਖ਼ੇਖ਼ੇਖ਼ out of five — No one will ever accuse Elvis Costello of being a hard-hitting journalist, but the bespectacled Brit has more than enough charm, wit and street cred to make his Sundance Channel show "Spectacle" a must for music fans. This two-DVD set includes all seven episodes from Season 2 and features Costello hob-nobbing with the likes of Bono, Neko Case, Lyle Lovett, John Prine, Allen Touissant, Levon Helm, Nick Lowe, Richard Thompson and Bruce Springsteen. Mixing conversational-style interviews with musical performances at Harlem's famed Apollo Theater, each episode is a winner.

Basketball Wives û

VH1

U2's Bono and the Edge offer some insight into the famed band's influences, performing songs that include "Stuck in a Moment You Can't Get Out Of," "Pump It Up/Get on Your Boots" and an amazing tune Bono wrote for Frank Sinatra called "Two Shots of Happy, One Shot of Sad." Costello even delivers a spirited rendition

of "Mysterious Ways." Sheryl Crow, Ron Sexsmith, Case and Jesse Winchester join the host for an acoustic guitar fest that includes songs from all four guests. Highlights include Sexsmith covering Costello's "Everyday I Write the Book," Crow's "If It Makes You Happy' and Case's "Prison Girls." Toussaint, Thompson, Lowe and Helm form an allstar band in another episode and deliver fantastic readings of "Rag Mama Rag," "The Beast in Me" and "The Weight."

Actress Mary-Louise Parker puts Costello in the hot seat in the least effective episode of the season. Parker gushes way too much and the interview comes across as overly scripted. On the plus side, Costello delivers first-rate readings of "Brilliant Mistake," "(I Don't Want to Go to) Chelsea" and "So Like Candy." Lovett, Prine and LaMontagne make for a fun set of guests and impress with renditions of "Jolene,"

Rising." (Jeffrey Sisk)

Basketball Wives ()

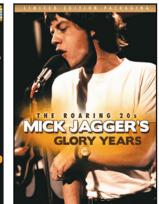

the-scenes documentary that adds nothing

"Natural Forces," "Loretta" and "Lake

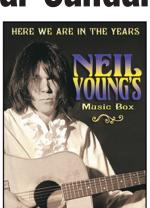

Marie." The season's centerpiece is a two-episode visit by Springsteen. The Boss is at ease with Costello throughout the lengthy appearance and standout musical performances include "American Skin (41 Shots)," "Oh, Pretty Woman," "She's the One" and "The

"WILLIE AND THE POOR BOYS" (MVD Visuals) ☆☆ — With an all-star lineup that included Bill Wyman, Charlie Watts, Kenney Jones, Jimmy Page, Paul Rodgers and Chris Rea, "Willie and the Poor Boys" should have worked better than it did. They recorded an album to benefit Multiple Sclerosis research and the music — covers of tunes such as "You Never Can Tell," "Chicken Shack Boogie" and "Baby Please Don't Go" — is quite good. The DVD, however, leaves much to be desired.

Essentially a 30-minute long-form music video from 1985, Willie and the Poor Boys are "performing" at a sock hop, with uninteresting vignettes featuring those in attendance at the show interspersed between the songs. Other than a chuckle-worthy cameo by Ringo Starr, there's not much worth seeing here. There's an equally dull behind-

Basketball Wives Jen is curious. ()

The Fighting Temptations \*\* (2003) 0

to the proceedings. (JS) "THE ROARING 20's: MICK

JAGGER'S GLORY YEARS" (MVD Visual) ☆☆☆ — The latest exploration of the life and times of Mick Jagger doesn't offer any groundbreaking insights into the legendary performer, but it's another fascinating look at the Rolling Stones frontman. Focusing on Jagger's fertile period between the ages of 20-29 (1963-72), "The Roaring 20's" traces the evolution of Jagger as a musician and pop culture icon.

Through interviews with music journalists and archival performance footage, an arresting portrait emerges. While much has been written about the drug-fueled friendship between Keith Richards and Gram Parsons during the making of the Stones' classic "Exile on Main Street," this documentary explores how Jagger resented the control Parsons had on his longtime songwriting partner and underscores how little he was involved in what many critics consider to be the band's best album. (JS)

"HERE WE ARE IN THE YEARS: NEIL YOUNG'S MUSIC BOX" (MVD Visual) ☆☆☆ — Like Jagger, Neil Young's career has been put under a microscope often. "Here We Are in the Years"

isn't as thorough as some of the other DVDs out there, but does a nice job showing how Young's eclectic taste in music has

kept him unpredictable. From his early "guitar nerd" fascination with surf rock to his flirtation with Kraftwerk-inspired electronics to his now famous 1993 performance with grunge gods Pearl Jam at the MTV Music Awards, a panel of journalists and music historians trace how, for better or worse, Young has never allowed himself to stay in one place

musically for too long. (JS) "RADIOHEAD: ARMS & LEGS" (MVD Visual/Pride) ☆☆½ — Billed as a special edition 2-disc set, "Arms & Legs" is, in fact, little more than a repackaging. The first disc is the previously available "OK Computer: Classic Album Under Review," while Disc 2 is an occasionally interesting overview of the band's rise to prominence.

The critical breakdown of "OK Computer" is impressively thorough and looks at the famed album track by track. The critical insights make sense, but without any input from the band it's hard to determine just how accurate the panelists really are. This set is for hardcore Radiohead enthusiasts only. (JS)
