

Strange Fruit: The Beatles' Apple Records: Beatles completists and music enthusiasts in general will want to take a look at this expansive study of the Fab Four's record label, which released albums by Badfinger, Billy Preston, James Taylor, Ravi Shankar and other key acts of the late '60s and early '70s. Don't be daunted by the two-and-three-quarter-hour running time; there's some great stuff in here.
