Bob Dylan

And the Band - Down In The Flood

Review by **G. W. Hill**

This documentary is pretty interesting. Looking back at the whole thing with Dylan working with The Band, it's easy to forget all the controversy involved. We live in a world now that sees different musical styles merging frequently, but when Bob Dylan went from folk music to rock, it was a really big deal. He ticked off a lot of people. This documentary goes into great detail about the entire process of Dylan and The Band coming together and what it meant to music from a cross-cultural point of view. It's fascinating stuff with a lot of great interview segments and clips.
