### The Rolling Stones

#### Under Review 1975-1983: The Ronnie Wood Years Part 1 DVD

Review by G. W. Hill

It is clear from this documentary that the first years with Ronnie Wood were inconsistent and there was a lot of trouble in the Rolling Stones camp. The thing is, albums like *Some Girls* and *Tattoo You* are among my favorite Stones albums, so it means they were doing something right. I really like this documentary a lot. It's a bit on the long side, but considering we're in the midst of the 50<sup>th</sup> Anniversary of the Stones, the timing is perfect.
