

Eric Clapton — The 1970s Review

Release date: March 11

Details: 2013, MVD Entertainment Group

Rated: Not rated

The lowdown: A film that looks at the career of virtuoso guitarist Eric Clapton in the 1970s.

In the late 1960s, Clapton left Cream and played with bands such as Derek and the Dominos before embarking on his solo career.

The feature looks at the albums and tours Clapton made during the decade. The film features archival interviews and performance footage.

Technical aspects: 16:9 widescreen picture; English Dolby digital stereo sound.

Don't miss: No extras. - Bob Bloom
