Because of your reviews and comments on em', I've ordered Synchronicity, Black Ice, Tapeworm and the God Memoirs. The descriptions you gave for each make them sound sooo screwed and really demented. Thank you for posting your thoughts on these Hirschbine films, i'm really looking foward to em'!!!
- [@IsraelDecoy](#) thats awesome, didn't know that tapeworm had an official release yet. be patient with them they have to sink in a bit, well atleast with me they did but after they did i liked them alot.
