DVD

Track Listing:

This ode to 70's sleaze set in the disco era is a blood, guts & boobs filled movie. It makes fun of the disco era and is complete with bad wigs, bad clothes, bad acting & actors who can't really act; this movie is a campy slasher flick that's easy to figure out...everyone gets naked, most of the characters die & there's tons o' blood & boobs!

The initial plot is the main character hooks up with a woman, the woman is a witch or some sorta satanic priestess, she wants more from the man but he only wanted sex from her, she puts a curse on him and basically all his friends & lady friends turn into zombies....there's a happy ending but I won't spoil it for you.

I think the film re-creates the 70's in a way that's both comical & stereotypical because it's not done in a glamorous way like the TV show "That 70's Show", it's done in a dark, b-movie/slasher flick way & all that's really missing from this movie is Ron Jeremy!

I will spoil one moment in the movie by telling you the funniest moment in the movie is when one guy's "member" is cut off & they show it in the most graphic way possible yet it's funny because of all the bad acting & cheesy "special" effects.

All in all this is a fun b-movie, you know what you're going to get when you pick it up so it's a fun, campy horror flick with a 70's disco theme to it.
