DVD Review: Scissor Sisters Live in Victoria Park

Published 31st January 2013

TGS favourites and longstanding LGBT icons the Scissor Sisters have gifted our lives with a stunning hour-long concert in London's Victoria Park. Taken from their set at 2011's Lovebox Festival, their soon-to-be-released DVD features 13 blow-your-socks-off amazing hits, including *Laura*, *Take Your Mama* and *Fire with Fire*.

With every one of the 4 albums released in the UK hitting the No. 1 spot, it shouldn't come as a surprise that Jake Shears & co. are just as fabulous on screen as they are on the radio. Live in Victoria Park: London 2011 shows the Scissor Sisters at their best and is perfect for getting into the going out mood. Highly recommended for pre-drink bashes across the UK.

SpecCyChap @TheGayStage My (equally) creative better half is staging a play this week that he wrote for Age UK. A shout out would be marvelous!
